The Taste of Health Restaurant

Meet B.O.B...Again!

An Award Keeping Restaurant!

On July 19, 2007, the Taste of Health Restaurant received the "Best of the Best" award (B.O.B.) given by Dine Out Kansas, a part of Gov. Kathleen Sebelius' Healthy Kansas initiative. I am pleased to announce that in 2008, The Taste of Health Restaurant will be able to keep the "Best of the Best" designation. For those unfamiliar with B.O.B. and Dine Out Kansas, here is a little info about the project.

The statewide initiative known as Dining with B.O.B., which is short for "Dining with the Best of the Best," encourages Kansans and visitors to eat a healthy diet, which translates into better health for all. The Taste of Health Restaurant is all about encouraging healthier food options. The restaurant offers a menu of low fat, low sodium, low sugar, whole meals, along with offering foods that are high in fiber. The award was based on food safety, healthy menu options, and having a smoke-free environment. You can find more information at www.healthykansas.org.

The Taste of Health is honored to have received this distinction, and we're doing everything possible to keep it!
